

# ADAPT BUTTON: ACTIVATED

## DON'T SNOOZE

Avoid the classic Putter-Offer move of snoozing on every opportunity to take action with a space that no longer serves your needs visually or functionally

## DON'T PANIC

Take a hot minute and chill before diving headfirst into a room redo without working through the 5 steps of ADAPTATION. Are you ready to live better in your home?

## DO ACTIVATE THE ADAPT BUTTON WITH THESE 5 STEPS:

- 1 REALIZATION** My space isn't working for me anymore.
- 2 DECLARATION** I'm SO not cool living like this!
- 3 INVESTIGATION** Ok, what's the damage?
- 4 ACTION** Move stuff around, in, or out of the room
- 5 OBSERVATION** Did those actions make a difference for you?  
If not, keep trying it feels right!
